PROFESSIONAL SUMMARY

Senior Frontend Engineer with **6+ years** of experience building scalable, data-heavy web applications with React.js and TypeScript, including D3.js and AG Grid interfaces and AI chat UIs with streaming responses. Leads a frontend team, owns frontend architecture and has raised team efficiency by 25%. Strong in performance optimization, automated testing, secure authentication, code reviews and mentoring, with daily use of AI-integrated development tools such as Cursor and Claude Code.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend	React.js (18/19), Next.js, Redux Toolkit, React Query, Responsive Design
AI-Integrated Dev	AI-Integrated Dev Tools (Cursor, Claude Code), LLM Chat UI, Streaming Responses
Data Viz & Grids	D3.js (custom charts), AG Grid, Large-Dataset Rendering
Styling / UI	Bootstrap, TailwindCSS, Material-UI, ShadCN
Testing	Jest, React Testing Library
Quality & Perf	Google Lighthouse, SonarQube, Accessibility, Cross-Browser Compatibility, Code Reviews
APIs / Security	REST API Integration, GraphQL, WebSockets, Node.js (basic), JWT Auth (client-side), CORS, XSS Prevention
Tools	Git, GitHub, GitLab, BitBucket, CI/CD, Postman, JIRA, Agile/Scrum

WORK EXPERIENCE

Senior Frontend Developer | Apptware Solutions LLP, Pune — Jun 2024 – Present

- Architect and own the frontend of scalable React.js applications, improving performance and responsiveness.
- Lead the frontend team in adopting modern development practices, raising development efficiency by **25%**.
- Built an AI chat interface with real-time streaming response rendering, integrating LLM APIs.
- Designed reusable React components and UI libraries, cutting development time for new features by **40%**.
- Built data-intensive UIs with D3.js charts and AG Grid, optimizing large-dataset rendering.
- Implemented secure JWT auth flows on the client: protected routes, role-based access, and interceptors that refresh tokens and retry after a 401.
- Managed server state with React Query alongside Redux Toolkit, improving data fetching and caching.
- Ran build and test checks through CI/CD pipelines.
- Conduct code reviews and mentor junior developers, driving consistent code quality.
- Partner with UX/UI and backend teams to deliver responsive, accessible, cross-browser interfaces.

Software Engineer | Opcito Technologies Pvt. Ltd., Pune — Jun 2022 – Jun 2024

- Led the redevelopment of legacy web applications using React.js and TypeScript, reducing bug reports by **50%**.
- Optimized application performance and SEO, achieving a **90%** Lighthouse score and significantly faster load times.
- Implemented automated testing with Jest and React Testing Library, reaching **80%+** code coverage.
- Integrated SonarQube static code analysis into the workflow, reducing code vulnerabilities by **50%**.
- Coordinated cross-functional teams to deliver new features on schedule and to specification.
- Authored frontend architecture and coding-standards docs, speeding up team onboarding.

Software Engineer | Capgemini Technology Services Ltd., Pune — Sep 2021 – May 2022

- Developed and maintained dynamic, high-performance React.js web applications.
- Integrated RESTful APIs with backend developers, enabling reliable data flow.
- Implemented responsive design principles for a consistent experience across devices and screen sizes.
- Contributed to Agile sprint planning, daily stand-ups and reviews, supporting timely feature delivery.

Software Engineer | Contextine Software Pvt. Ltd., Pune — Jul 2020 – Sep 2021

- Built and optimized React.js applications that improved data extraction and user interaction.
- Designed parsing algorithms and rule engines using regular expressions and string-matching techniques.
- Preprocessed and cleaned receipt data to ensure high accuracy and consistency in processed output.
- Built custom receipt formats with tailored parsers for specific customer requirements.

EDUCATION

Master of Computer Science · University of Pune · CGPA 7.95 / 10 — May 2018 – Apr 2020
